Broker User Dashboard

These are the main features provided in the Broker User module.

Endorsement Requests

The dashboard should display the count of all pending endorsement requests, including those not assigned.

Enquiries

The dashboard should display the count of all pending enquiries, including those not assigned.

Reimbursement Claim Status

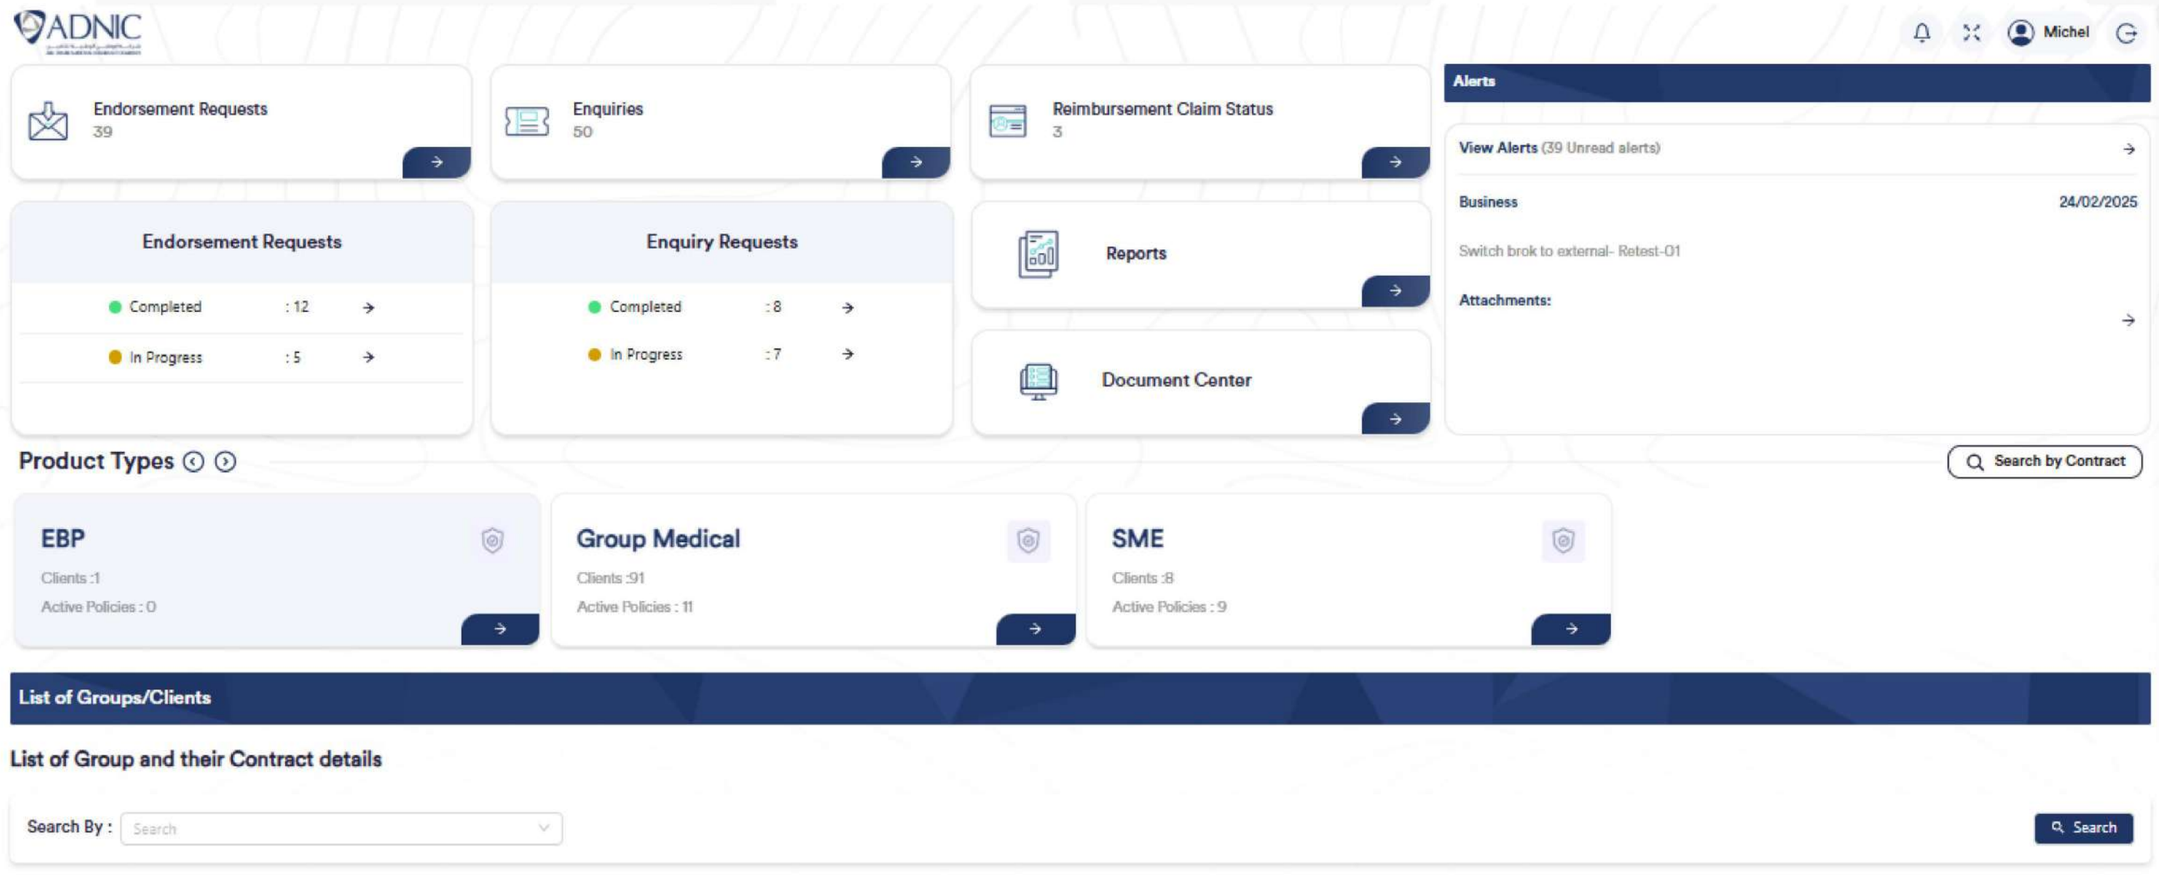

The dashboard should display the count of all pending reimbursement claims.

Reports

The user can generate reports in this section.

Document Center

Clicking the **"Document Center"** option allows the user to download document templates.

Endorsement Request

- Clicking on the "Completed" count redirects the user to the endorsement request status list, showing only completed requests.
- Clicking on the "In Progress" count redirects the user to the endorsement request status list, showing only pending requests.

Enquiry Request

- Clicking on the "Completed" count redirects the user to the enquiries list, showing only completed enquiries.
- Clicking on the "In Progress" count redirects the user to the enquiries list, showing only pending clarification/ document enquiries.

View Alerts

- Clicking the "View Alerts" option allows the user to see all alerts.
- The dashboard displays the count of unread alerts.

View Recent Alert

- The user can view the most recent alert in this section.
- Clicking on an alert opens the detailed view.

Product Types

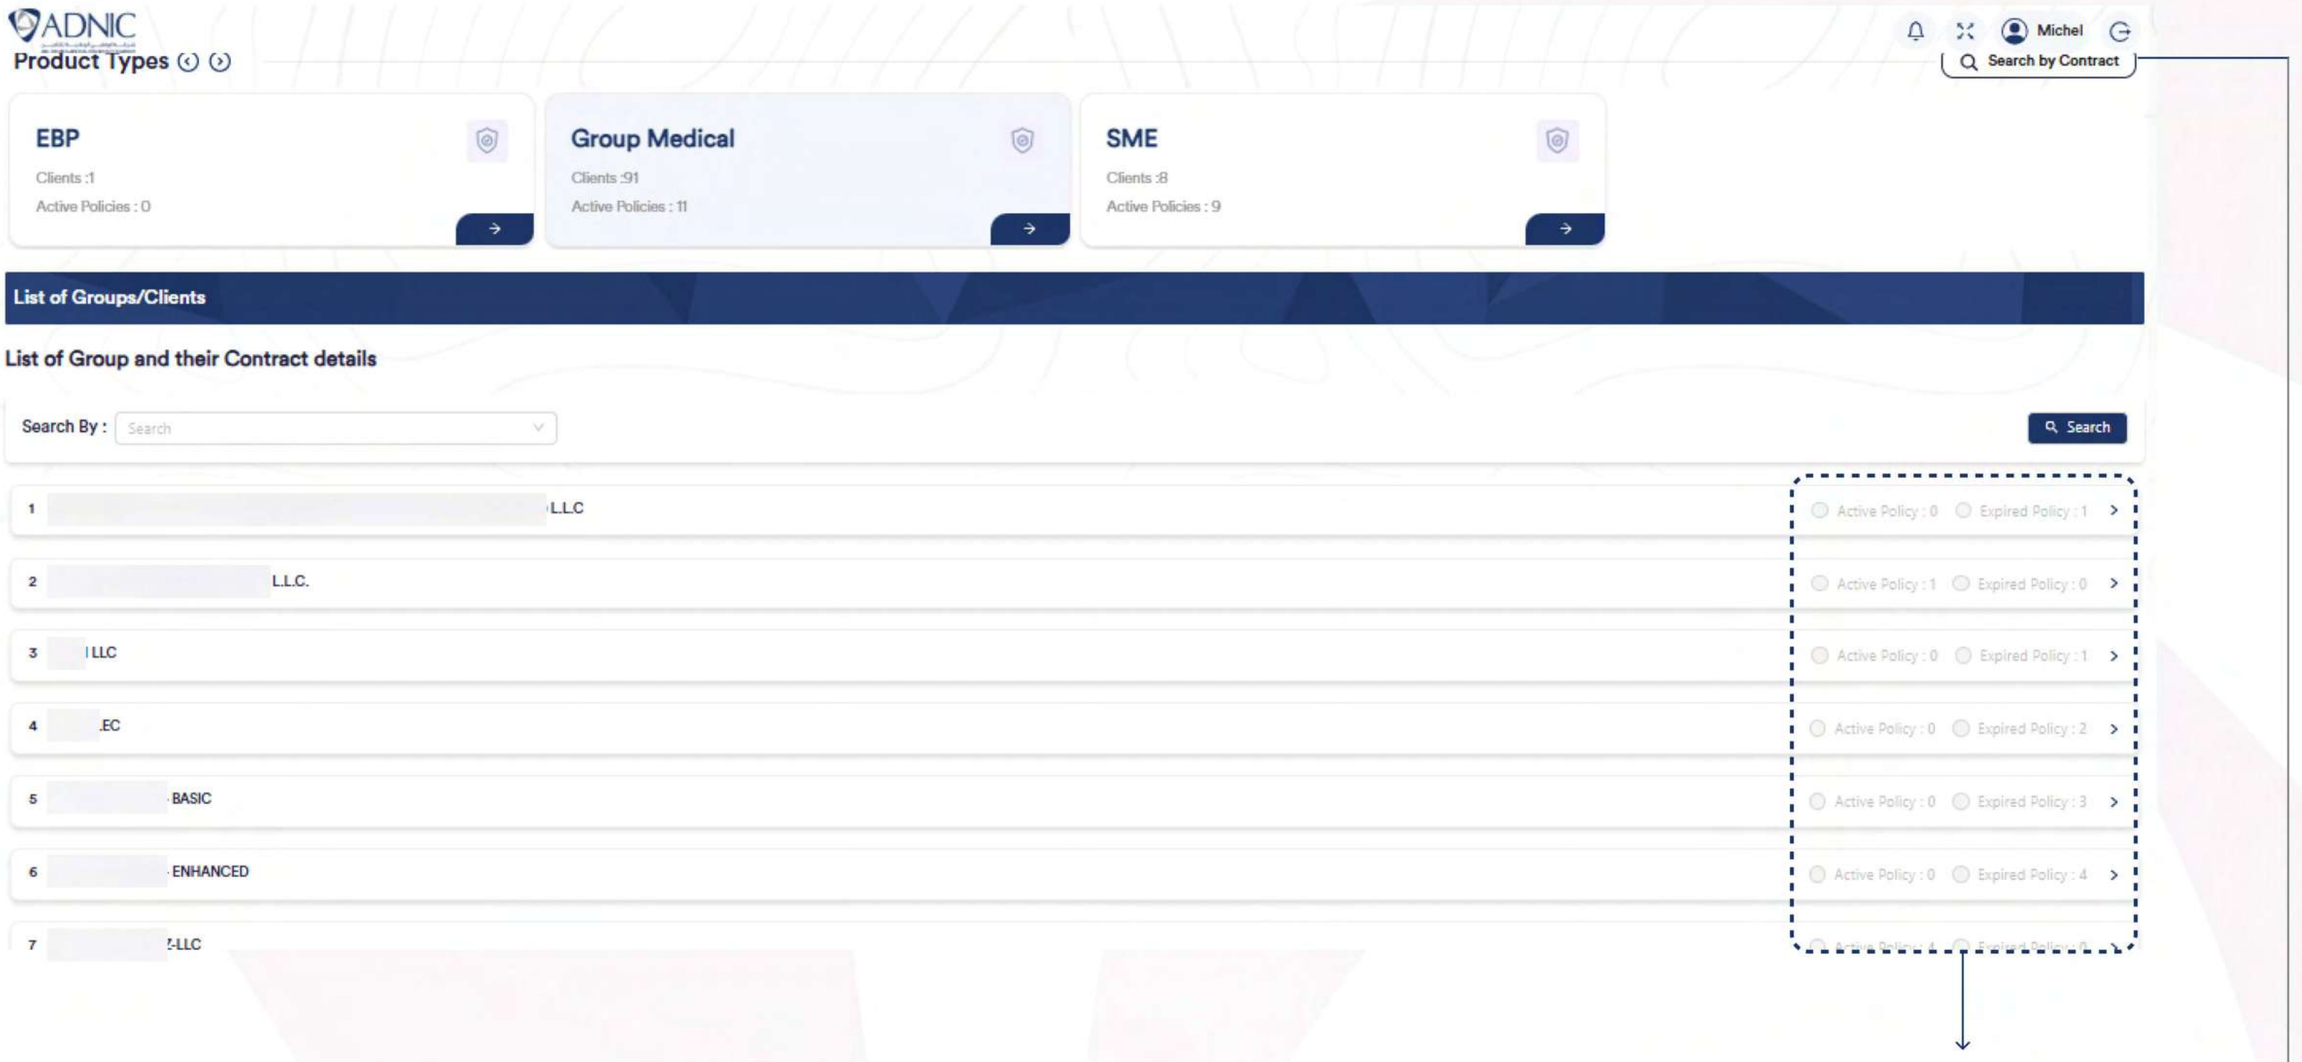

- The dashboard displays applicable product types based on contract mapping.
- Clicking a specific contract shows the associated groups/clients.
- The first product type loads by default on the dashboard.
- Products are arranged in A-Z order.

List of Group/Clients

- The group/client list is displayed based on the selected product type.
- Users can select a specific group/client to view the contract list.
- Selecting a contract provides access to detailed options.

Contract List

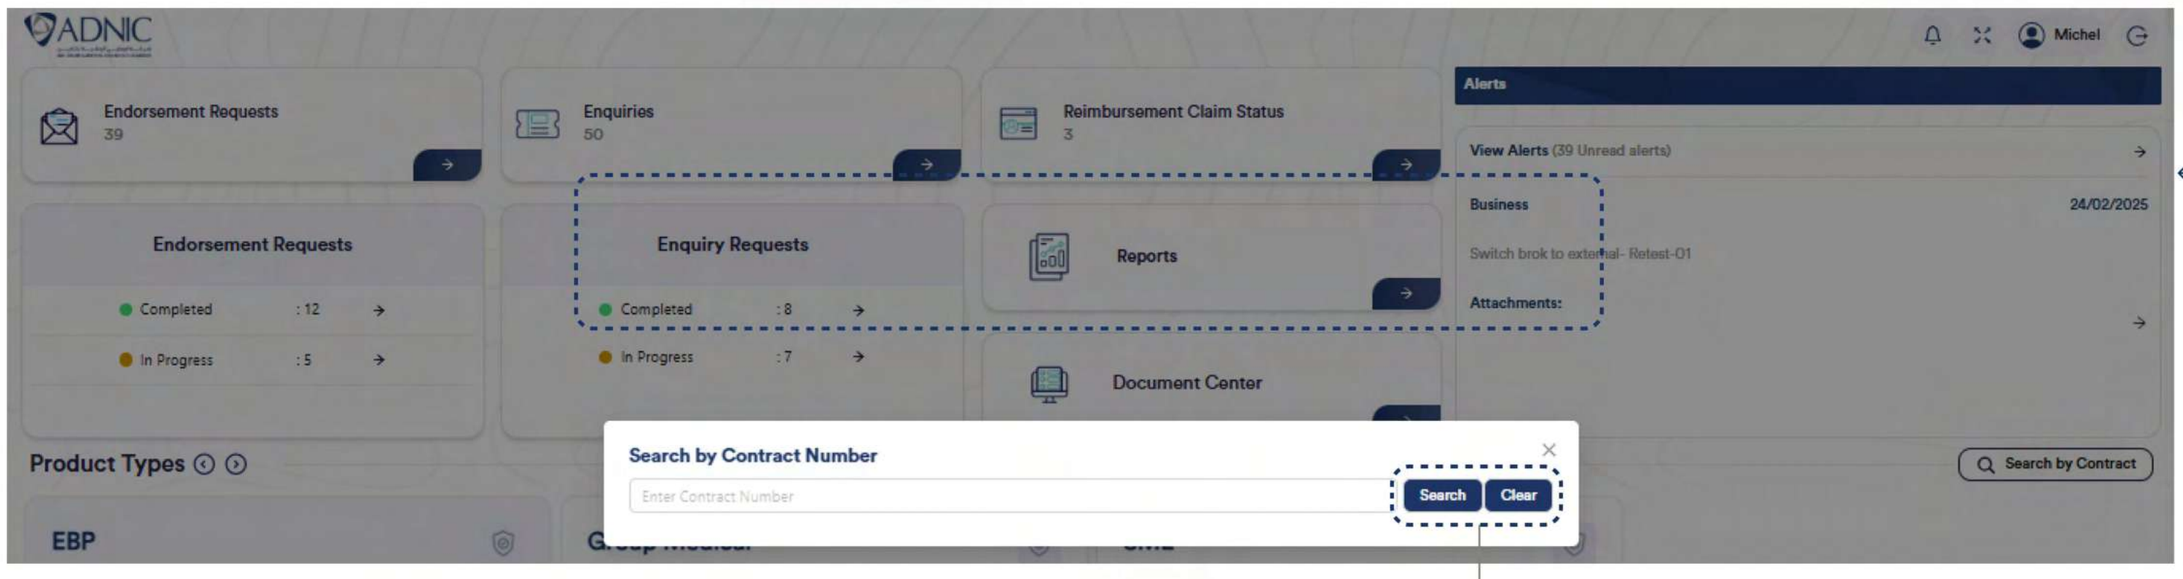

A dropdown menu will display a list of group or contract details, including the total number of active and expired policies.

The number of active and expired policies is displayed here. Click on a specific contract to view its details.

Search by Contract Number

Clicking the 'Search Contract' button opens a pop-up window where users can enter a contract number to search. The system will display relevant contract suggestions accordingly.

Enter the contract number in the pop-up window, then click the 'Search' button to retrieve the contract details.

Contract Details Dashboard

Contract Details

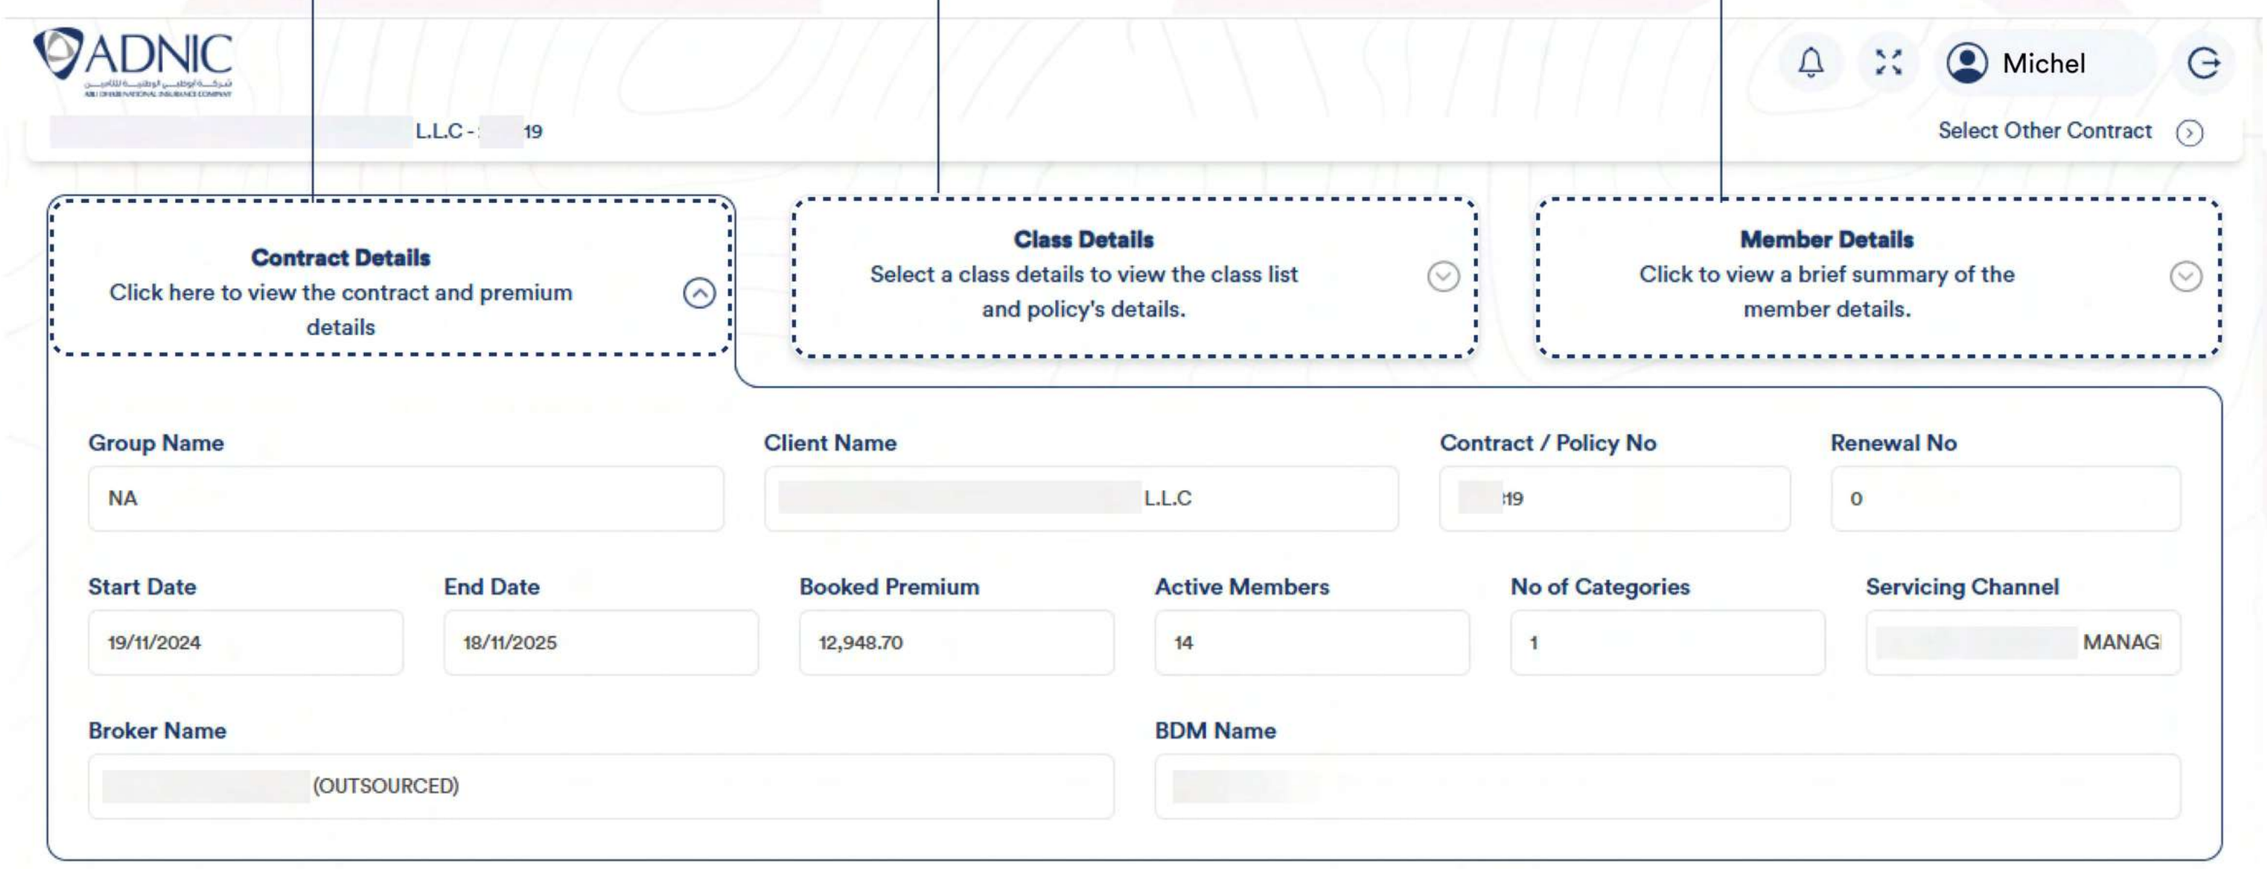

Click to view contract-related information.

Class Details

Click to view details of the classes covered under the contract.
